■ A Leading Business School
Helping Energy Companies in the World to
Prosper & Succeed!

Why DBA in Oil, Gas & Petrochemical Industries?

With the increasing complexities and competition in energy, oil, and gas markets across the world along with the new emerging technologies such as AI, Big Data, IoT and Automation in organisations, energy companies across the globe have no way other than further educating and improving their human resources, talents and organisational capacities.

The future survival and thrift for energy companies is very much dependent on how much they have become agile and how much learning they have exposed themselves to.

The DBA in Oil, Gas and Petrochemical Industries of ESC Clermont Business School with years of experience in developing and educating the top C-Suit and directors from the energy sectors across the globe will heavily serve the growth purpose and improve the visions of energy companies.

Internationally known and experienced professors of the courses with a great consulting background in globally known petrochemical companies will equip the students with the latest business and management tools and models which can be utilized to further enhance and increase the personal and organisational productivity.

ESC Clermont Business School Doctor of Business Administration Degree Program in Oil, Gas and Petrochemical Industries, is a must attend academic course with loads of practical models and techniques along with lots of teamwork and group exercises planned for directors and managers that are prepared to win big in the global competitive markets.

Dr. Richard Soparnot
The Dean of School

It is indeed a pleasure and honour for me as the Dean of ESC Clermont Business School to welcome you on our Doctor in Business Administration in Oil, Gas & Petrochemical Industries program to help you improve and develop your organisational and personal capacities and capabilities.

The tough and heavily competitive global energy markets demand the energy companies to further invest on their human capitals and talents and to prepare them to face with the coming challenges and pressures and to plan strategies and guidelines to help them steer and navigate through the turbulent conditions ahead.

Our top professors will ensure that their years of experience in managing, and leading the oil, and gas companies will be shared with you and indeed to help you gain more insight and wisdom in your daily decision making to further elevate your organisations.

Our school with over 100 years of experience in the world of higher education and over 15000 graduates will be your best educational partner to help your organisation reach at higher levels.

Thank you and hope to see you soon.

ABOUT ESC CLERMONT:

The ESC Clermont School of Management was established more than 100 years ago in 1919.

Since then, over 15.000 graduates have contributed their talents and skills to business communities all over the World, from the Auvergne Rhône-Alpes region in central France where the Business School is located, to Paris, London, New York, Dubai, Singapore, Beijing, and almost everywhere in between.

What started out as a small school in Clermont-Ferrand (home to Michelin Tire Company's World headquarters), has now grown to be internationally accredited by AACSB. The school obtained the AMBA accreditation in 2020.

ESC Clermont Business School is ranked amongst the best 5% business schools with AACSB-accredited, which is recognized for Top Business Schools around the globe. It is one of the oldest business schools in France.

ESC Clermont Business School was also accredited by Financial Times, QS World University Rankings and French Ministry of Higher Education and Research.

ESC Clermont is ranked among the Top 100 Business Schools by Financial Times.

The ESC Clermont School of Management is also part of 'Conférence de Grandes Ecoles' (Great Schools), the association comprising highly selective and prestigious institutions that are recognized by the state.
